TUAN T. LAM
PRIMARY EXAMINER

Art Unit: 2816

1. The following is an examiner's statement of reasons for allowance: the amendment filed 6/14/2006 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest a combination of first storage node having an input coupled to the first pass gate and having an output storing the first signal, a second pass gate connected to the output of the first storage node, first inverter connected to the output of the first storage node, an unlocked second storage node having a signal node coupled to the second pass gate and having a complimentary signal node coupled to the third pass gate as called for in claim 9, the combination of second pass gate having a second pass gate data input connected to the output of the first storage node, a first inverter input connected to the output of the first storage node, on power up, conveying the stored data input signal stored in the second storage node out of the output node and conveying the inverted stored data input signal stored in the second storage node out of the complimentary output node regardless of states of the master clock signal and the slave clock signal as called for in claim 15. Therefore, claims 9-16 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).
